

USB 2.0 Hub 7 Port

english

1. System Requirements

- USB 2.0 Port
- Operating System: Windows 98SE / 2000 / ME / XP and Mac OS 9.22 or higher

2. Package Contents

- 1x USB 2.0 Hub 7-Port
- 1x Power Supply (DC 5V/4A)
- 1x Power Cord
- 1x USB Cable A/Male > Mini5p/Male
- 1x User Manual

3. Installation

Connect the included power cord with the power plug to any power socket and with the other end to the power supply.

Now connect the power supply with the attached cable to the power socket of the hub. A red LED will light up.

If you now connect the hub with your PC (Mini5p plug to hub, Type A plug to PC) using the included USB cable, the notice "New hardware found" and "New hardware will be installed" will pop up on your monitor.

After the installing is finished the hub is ready to use.

4. Using the 7port hub
